

MAY & JUNE Professional Development Virtual Zoom Trainings!

These are OCFS APPROVED trainings.

You WILL receive a certificate for OCFS training hours.

ACE Institute Level 101

This training aims to broaden the state's understanding of ACE's and their impact on young children, their families, and the field of early childhood education. The 101-Level ACE Institute Training for Child Care Providers and Educators is the first training in a series designed to broaden the awareness of the effects of ACE's on children. This is the foundational training in which providers will learn the basic brain science surrounding the ACE's research. In later trainings, providers will apply this knowledge and gain practical strategies for trauma informed practice in early childhood education and care.

The Directors Role in Reducing Challenging Behaviors in Young Children

As leaders in early childhood, program directors/administrators play a crucial role in supporting emotionally fragile children and reducing challenging behaviors in their early learning centers. How can you ensure developmentally appropriate expectations and nurturing relationships between the children and the teachers? Are there too many transitions or not enough transitions in each classroom environment? Come join us as we discuss how you can set the stage in supporting your teachers, the children and families in your care.

Why Risky Play Matters – Bringing “Risk” Back into Children’s Play

Children need to take risks in order to grow. Without “risk”, children can either become too timid to try out new things or take inappropriate risks. Taking a risk can be climbing to the top of the climber or asking to join a group of children in play. It is having the courage to try something new – physically, emotionally, and cognitively. Learn how set up learning spaces and design activities give children opportunities to take risks. We will explore how to inspire imagination and creative thinking.
